

CGJ Parade Line up sketch map [7 to 6]

First announcement - **Be SAFE**

Second announcement - **Don't drive over the recently built curb and gutter work along Ave B and side streets.**

The **first attachment** has your location within a section of the parade line up.

These sections are one block long. The map has indicated that some entries will actually stage on north or south streets of the designated intersections.

Should your line up group become congested, some of you may also stage on side street and turn into the parade route as your spot in parade passes by.

At 10:45, if open space is available in front of you, you may move up to the next entry. While not getting too cramped, it will help clear some of the route intersection [behind you] on Ave B that citizens will likely use to navigate around our parade activities.

Second attachment is a map of the downtown parade route, start point, finish point, overflow parking at east end of town beside the children's playground [across from the Dollar General]

The 'L' marks the location of a 2-acre sand lot behind the Post Office where some of you may need to unload trailers, park trucks and trailers and reload trailers.

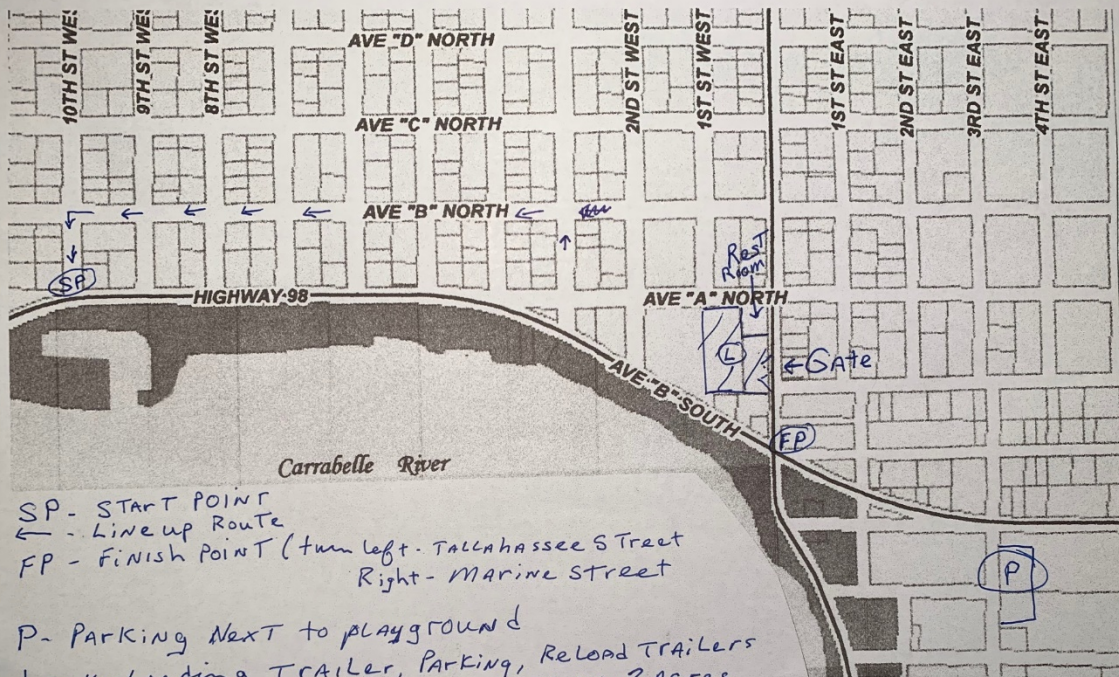

Millinder Park adjacent to the sand lot has restrooms

As there are always more questions, email, text or call me.

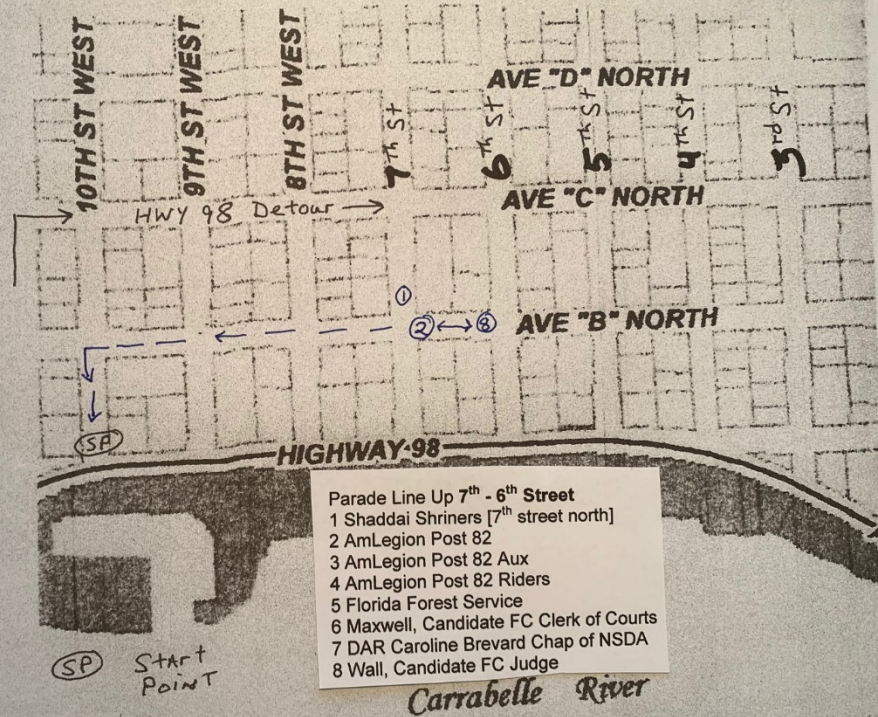

If offered a 'Thank You Veterans' sign, please accept this sign and display/wave it. There should be an equal number of veterans among the spectators.

See you at the parade on Saturday. Have Fun. Thank a veteran - we should have a few at this parade!
